

# TRADING AT LOW EBB

Futile to Attempt to Measure Significance of Changes.

## MONEY SITUATION SAME

Early Advance in Stocks Was Characterized by Readiness of Traders to Realize—The Market Closed Dull and Heavy.

(By Associated Press.)

NEW YORK, January 23.—Yesterday's improvement in speculative sentiment seemed to be maintained to-day, but the trading was at such a low ebb of activity that it was futile to try to measure the significance of the changes. To-day's total sales of stocks were little changed from yesterday. In a few cases there was buying of stocks, but strength of special developments, but this demand did not follow a rise in prices far, and had very little sympathetic effect on the general list. The firmness of the coalers was based on the report of net earnings for New Jersey Central in December, showing an increase over those of last December of \$32,000. Confident predictions were made that the forthcoming December report of Erie would show even better results. On the other hand, the Atchafalaya December report showed a loss of \$1,011 of the increase in the gross earnings taken up by the enlarged expense account.

The rise in American Smelting was based upon assertions of very large current earnings and a heavy surplus account. The rise in the price of the stock that it would benefit in a largely increased degree hereafter from the earnings of the Nashville, Chattanooga and St. Louis. Amalgamated was bought on reports of the acquisition by the company of mines in Nevada and in the United States in price of copper in London. A number of low priced railroad stocks were lifted. These are fair samples of the influences which are allowed to affect the market. Manhattan was under pressure of renouncing by those who are buying the stock for the privilege of subscribing to the stock, the rights for which came off the stock to-day.

The situation in the money and exchange markets was without appreciable change. Yesterday's decline in export buying, when as a result of the higher price, was a subject of comment, and there was keen interest to learn whether to-day's reaction in wheat would lead to renewal of the export demand. The character of the early advance in stocks was due to the readiness of the traders to realize. The selling of the last hour was a proclamation of weariness with the attempt to get prices up. The market closed dull and heavy. The bond market was moderately active, and the movement of the market was irregular. Total sales, par value, \$2,510,000.

United States bonds were unchanged on call. Total sales of stocks to-day were \$41,300 shares.
